

ATTARD'S KITCHENS & CABINETS

STREAMLINED CABINETS

UNIQUE AND MODERN DESIGN

This modern kitchen by Attard's Kitchens & Cabinets features a large amount of storage space and a classic black and white palette. The functional design of the open-plan layout allows the kitchen, living and dining areas to be separated without compromising on space or style.

Attard's Kitchens & Cabinets created an abundance of storage space by installing floor-to-ceiling cabinetry that encompasses the back wall. With integral handles and matching kickboards, the cabinetry blends together seamlessly to achieve the illusion of a wall.

Black-stained American Oak crown-cut veneer and a clear, long-lasting polyurethane finish were selected for the cabinetry. The dark colour contrasts beautifully with the surrounding walls, and creates an increased sense of space. Two black ovens are integrated into the cabinetry to ensure the streamlined appearance remains unhindered.

Carrara marble was handpicked for the island bench for a beautiful contrast and an added sense of luxury. The marble was professionally honed and sealed to ensure a lasting result.

The island's waterfall panels are cohesive with the unified, block-coloured aesthetic of the kitchen. With a breakfast bar incorporated into its design, an appropriate amount of space is provided for simultaneous food preparation and entertaining.

Drawers with Blum TANDEMBOX intivo systems were installed within the island for increased storage space. A double sink is undermounted to increase the streamlined appeal.

A floor-to-ceiling sliding door conceals a step-in pantry, which includes internal lighting and custom-made shelving to maximise its storage potential. The appliance cabinetry seamlessly integrates the fridge and dishwasher, as well as offering internal lighting and a retractable pocket door for optimum convenience.

A stainless steel benchtop that extends up the walls provides the cooking zone with a sanitary and easy-to-clean surface. A Dekton splashback imitates the look of the benchtop for a unified effect. The recessed strip light that's positioned against the splashback is intensified by the reflective surface for an energy-saving effect.

Attard's Kitchens & Cabinetry won Kitchen of the Year (National) at the Housing Industry Association (HIA) Awards in 2012, and has been a frequent finalist in the HIA Kitchen & Bathroom Awards and the Hills Building Design Awards (HBDA) since 2008.

With Attard's Kitchens & Cabinetry, clients are only limited by their own imagination, and the experienced designers will create a finished product that reflects the personality of the homeowners, while blending seamlessly with the rest of the home. The company forms strong, long-term relationships with clients, and a team member will be available every step of the way to answer any questions that may arise.

Attard's Kitchens & Cabinetry strives to deliver practical and affordable projects that look modern and beautiful, while integrating functional features. Whether you're planning an office renovation, a dream kitchen construction, or the installation of other joinery throughout the home, Attard's Kitchens & Cabinetry is able to cater to every client's individual needs.
