

ATTARD'S KITCHENS & CABINETS

LONG-TERM COMMITMENT

A FRESH PERSPECTIVE

This project was designed by Attard's Kitchens & Cabinetry over an extended period of time, and each area of the home was fitted with cabinetry in stages to allow the clients to get a feel for the design.

The completed kitchen features stone waterfall benchtops, a crisp white colour palette, handle-free cabinetry, glass splashbacks and a separate butler's pantry. The kitchen's cabinetry makes the most of the high cathedral ceilings and perfectly complements the warm tones of the timber floor.

Attard's Kitchens & Cabinetry also installed stylish and functional cabinetry in the home's open-plan living area. A floating entertainment unit and open-shelving was designed to maximise storage and maintain the home's overall appearance.

A European-style laundry was incorporated to maximise the use of a confined space, while an enviable wine cellar with ceiling-high wine racks, floating cabinetry and a separate bar enable the owners to indulge in their passion for fine wine.

Michael and Alison Attard founded Attard's Kitchens & Cabinetry in 1989, and have been creating award-winning cabinetry for their Sydney clients ever since.

The couple has accumulated a wealth of knowledge and experience in the cabinetmaking industry and work effectively to ensure each project is a success and completed to the highest level of quality.

The company provides every customer with reliable, trustworthy and customised service that is tailored to each project to meet the individual needs of every client.

Attard's Kitchens & Cabinetry forms strong, long-term relationships with clients and a team member will be there every step of the way to answer any questions that may arise.

Specialising in the design and manufacture of custom kitchens and bathrooms, Attard's Kitchens & Cabinetry is able to assist with the design and construction of cabinetry for both residential and commercial properties.

Attard's Kitchens & Cabinetry is proud to use a combination of Australian-made and European materials, providing clients with the finest materials available. In order to maintain this high quality, Attard's Kitchens & Cabinetry has formulated, and adheres to, a strict standard that when coupled with the company's exceptional workmanship, the results speak for themselves.

With Attard's Kitchens & Cabinetry, clients are only limited by their own imagination, and the experienced designers can create a style and finish that reflects the personality of the homeowners, while blending seamlessly with the rest of the home.

The company strives to deliver practical and cost-efficient projects that generate a wow factor, while still ensuring functionality. Whether it's an office renovation, dream kitchen construction, or designing other joinery throughout the home, Attard's Kitchens & Cabinetry is able to cater to every client's needs.
