

HIDDEN TREASURES

“Although the main kitchen isn’t that large, we increased the visual size by integrating the appliances and placing the sink and microwave in the walk-in pantry. This means that the main kitchen doesn’t have to be used all of the time. The owners asked for lots of functional storage and for the kitchen to complement the period of the home. There was a challenge in configuring the height of the window and finished floor to ensure room for the dishwasher while also ensuring the flow of the bench outside, however, the design turned out clean, stylish and functional. Some stand out features include the continuation of the bench to the outdoors, flush-mount cooktop forming a shelf above the cabinets, an integrated fridge and dishwasher, and a separate pantry area incorporating the laundry and appliance cabinet.”

Designer: Alison Attard for Attard’s Kitchens & Cabinetry
