

SLICK GREY AND WHITE

"This kitchen embraces style with uncompromising boldness and passion. Our brief was simple: to design a sleek modern kitchen with contemporary appeal. We paid great attention to the detailing of the kitchen. Each material, finish and element has been carefully selected to create a deceptively simple aesthetic. Long, clean horizontal lines let your eye travel across the space, with no handles or unsightly appliances to interrupt its journey. We created a walk-in pantry and appliance zone to one end of the kitchen, cleverly concealed so it's only visible once you're in the kitchen or meals area. Here, there is ample storage space for everything the owners could need without detracting from the clean minimalist look they desired. The balanced pairing of light and dark tones creates a sophisticated colour palette in powerful contrast to the warm radiance of the timber floor. The result is a kitchen that achieves minimal design for maximum impact."

We love the sleekness – it's almost too good to use.
