

We love...the clean white gloss finishes which define the space.

LIGHT TOUCH

"A light touch defines this perfectly proportioned kitchen. The aim was to design a streamlined contemporary open-plan kitchen that would make the most of the space, while naturally flowing into the adjacent dining area. To achieve this, we carried clean white tones from the cabinetry to the countertops, walls, and ceiling to create a seamless space without edges or boundaries to stop the eye. Elongated drawers trace a line around the perimeter of the kitchen to visually enlarge the space while providing optimum storage. In the centre of the room, the island bench is a multi-functional design element. Cooking and food prep can take place at one end, while a cantilevered Caesarstone benchtop provides space for guests to gather at the other end. It also houses ample storage. Light bounces off the gloss cabinetry, tiled floor and stainless-steel appliances, which punctuate the white canvas on each side, integrating into the floorplan seamlessly. The overall effect is serene and expansive."
